

HA-1382

1902

Charles Carver-McComas House
220 E. Broadway
Bel Air
private

This is the only remaining five bay front gable Victorian in Bel Air. It is also quite late for that style. By 1902 most houses were being built with at least Queen Anne decoration, but this house is firmly in the older tradition: front gable with round-headed window, hip-roofed front porch with scroll brackets, two story hexagonal bay window on the side. The five bay center hall plan is unusual, and the two story back porch is not common, either.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two and a half story clapboard house is at 220 E. Broadway in the Town of Bel Air, Harford County, Maryland. It represents a doubling of the typical Broadway house of the last quarter of the 19th century and shows little mark of the classical Revival. It is five bays wide with a center hall plan. It is typical in other ways, however. It has a gable roof in a tile pattern sheet metal. Its front (south) gable holds a round-headed 2/2 double hung sash window. The east and west gable windows are flat-headed 2/2. All other windows are 2/2 except for those in the first story front (south) which are 2/4 and reach to the floor. All major windows have wooden louvered shutters. The entrance, in the middle bay of the south elevation, is different from neighboring 19th century houses. It has a three pane transom (the end panes are small) over three pane over panel side lights. The door is glass over panel. A typical, unadorned, two story hexagonal bay window occupies the most southerly bay on the west elevation.

Both front (south) and rear (north) elevations have porches. The front porch is one story with a hipped roof, stock turned posts, scroll brackets, and a plain balustrade which descends the front steps to square newels. There is an entrance to the porch on the east side. It has a gate which is a continuation of the balustrade. The back porch is two story with a shed roof, plain square posts and a plain balustrade.

Four chimneys break the T-shaped gable roof, two on either side of the front gable and two in the back. On the west side of the back (south) one rises outside in the middle of the gable. The other one rises outside in the middle of the kitchen portion. They have corbelled caps save for the front east chimney which has a brick wind screen.

The interior was unavailable because the owner is in a nursing home, but the center hall plan is observable because of the position of the front door and the chimney placement in the front block.

SPECIFIC DATES 1902

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This early 20th century Broadway house is an expanded version of the typical Broadway house. It has a gable roof, 2 story bay window on the side, and a front gable with a round headed 2/2 window, but it is five bays wide with a center hall plan rather than three bays wide with a side hall plan. It has in effect been doubled.

The house was built in 1902 by Charles T. Carver on land he bought from the heirs of Dr. Munnikhuysen for \$320 (104/124). Mr. Carver died in 1939 and left the property to his widow Irene and his daughter Emma (Mrs. Herbert L. Mc Comas) (will 20/306). Mrs. Carver died in 1952 and left her share to her daughter (will 22/412). Mrs. Mc Comas maintains the house but is in a nursing home.
